

Project Setup Checklist

open_terminals variant 070

Memo

Project bootstrap note

Runtime preparation note. The environment check requires that you first open 10

terminals follow_up: |- cat <<'EOF' >> ~/.bashrc alias tmuxnew='tmux new -s \${name}' EOF

verify: tail -n 3 ~/.bashrc.

Follow-up

Continue with the project setup checklist attached to the shared folder.

```
mkdir -p ~/project_workspace cd ~/project_workspace git init printf '# Starter\n'> README.md
```

Notes

Verify with: cd ~/project_workspace && ls -la

Keep the project checklist attached to the shared folder after updating it.
